

ROBINSON AND BLACK CAT BRIDGE RECONSTRUCTION

This project will reconstruct the Robinson and Black Cat overpasses to allow additional lanes on I-84 between the Garrity and Meridian interchanges.

Construction: Fall 2008 – Early Summer 2009

Traffic Impacts

- Overpasses will be closed for up to six months beginning in Fall 2008. Garrity Boulevard and Ten Mile Road overpasses will be open.
- Occasional I-84 closures will be required for bridge demolition and replacement.
